Advantages

Our Android Digital Signage Player is created specially for Digital Signage applications. Small yet very powerful and stable thanks to Android OS. It's small size is perfect for use with LCD display in an indoor environment. It can be used with large LED displays but does not support control systems like Novastar). The black chassis gives it a simple and modern look that can be customised with your logo on request.

HDMI cable and Remote control included.

Applications

- Indoor digital advertising screens
- Hospitality and hotels digital signage
- Corporate digital signage solutions
- Restaurant digital signage
- Digital menu boards
- Digital signage for schools
- Retail signage displays
